Winter is around the corner...

Where should I park?

As winter approaches, please remember that City ordinance requires residents to move cars from the street when there is a one inch accumulation of snow or ice on the roadway. Cars parked on the street make it extremely difficult for snow plows to clear snow and ice from the pavement, especially in cul-de-sacs and on dead-end streets.

When will my street be plowed?

Plow operators are dispatched immediately at the beginning of a storm and stay out continually during the storm. They are responsible for clearing

over 300 center-lane miles of city roads, some of which require four to eight passes.

Snow plows first clear all arterial and major collector streets serving emergency response facilities and heavy traffic. After those roads are clear, the plows begin clearing main subdivision streets serving schools and moderate traffic. Lastly, all other streets, including cul-de-sacs and dead-end streets are plowed.

After a major storm, it may take two to three days for plow crews to clear all the streets.

Can I find out the status of roads that have been plowed?

During the snow season, West Valley City Public Works maintains a **Snow Removal Hotline**, providing regular updates on road conditions during storms. **Call 801-965-7575 for current conditions.**

If your regular garbage collection day falls on Thanksgiving Day, Christmas Day or New Year's Day, remember your garbage will be collected one day later.
