Paul Nichols addressed the City Council and indicated he had been a

resident of the community since 1956. Mr. Nichols commented on terrible traffic conditions on 4100 South and stated it had worsened since he complained to the City Council last November. He inquired if there was something the City could do about this problem.

George Edwards addressed the City Council and indicated he lived in the Diamond Summit Subdivision. He stated one of the reasons people “blew through” school zones was because many service trucks had flashing yellow lights. He indicated the flashing yellow lights were seen so often they were sometimes ignored. He suggested buttons on traffic lights that would change the lights on demand for pedestrians.

B. CITY MANAGER COMMENTS

City Manager, Wayne Pyle, indicated two of the speakers had discussed traffic safety and there were many ways to deal with traffic problems. He advised the City had over time attempted to address concerns from the community. He explained what had been done in the past and indicated staff would continue review of 4100 South. He advised that residents of the Diamond Subdivision had requested traffic calming measures in their neighborhood.

C. CITY COUNCIL COMMENTS

Mayor Bigelow stated he supported the Family Support Center and expressed appreciation for their work. He advised the Council had discussed 4100 South on numerous occasions and acknowledged there was a lot of through traffic and it would continue to grow with development. He stated a good solution had not yet been found other than general traffic enforcement. He stated school zones were an emphasis that should be considered a priority depending on resources.

PUBLIC HEARING, ACCEPT INPUT REGARDING APPLICATION NO. SV-1-2015, FILED BY WEST VALLEY CITY, REQUESTING TO VACATE ALL OF JOHN HENRY DRIVE LOCATED AT 2365 SOUTH 2570 WEST

Mayor Bigelow informed a public hearing had been advertised in order for the City Council to hear and consider public comments regarding Application No. SV-1-2015, filed by West Valley City, requesting to vacate all of John Henry Drive located at 2365 South 2570 West.

Mayor Bigelow presented proposed Ordinance No. 15-12 related to the proposal to be considered by the City Council after the public hearing, as follows:

The West Valley City Community and Economic Development Department had requested a street vacation for all of John Henry Drive located at 2365 South 2570

West that had been dedicated by the Cache Valley Electric Company in 1996. The purpose for the dedication would be to provide access for what would be a new building site and to provide a potential connection with undeveloped property to the north of the Brighton North Point Canal. The right-of-way was located entirely on property owned by Cache Valley Electric.

The street had existed since dedicated in 1996, with property to the north having been developed with no requirement for access from John Henry Drive. The City recently learned Cache Valley Electric was proposing to leave the City and rather than allow a prime industrial property to sit vacant, the Economic Development Division had worked to secure a new owner, CCI Mechanical.

As part of the referenced negotiations with CCI Mechanical to make the site more attractive and secure for their business operations, CCI had inquired regarding the possibility of vacating John Henry Drive. The City had explained the process and discussed various reasons why the vacation made sense, summarized as follows:

- The existing road dead-ended without an approved turnaround
- Property to the north had developed without the need for secondary access
- Property within the vacated right-of-way could be incorporated into a revised site plan
- Property within the vacated right-of-way would be put back on the tax rolls
- The Cache Valley Electric site was the only property utilizing this street

Typically when a street was vacated half of the right-of-way would go to each adjacent property owner. However in this case, Cache Valley Electric deeded the entire right-of-way for John Henry Drive. As a result, the entire right-of-way would go back to Cache Valley Electric or their successors in interest.

As part of the application, the City sent out notices regarding an application. The State of Utah had been a recipient of the notice, as they owned property immediately to the west of John Henry Drive. Staff had received a call from the State's real estate manager inquiring about the proposed vacation. A concern had been expressed that although the State did not presently use John Henry Drive there could be redevelopment plans in the future that would benefit from the road if it were allowed to remain a dedicated right-of-way. Subsequent to that discussion, a letter had been received from the State expressing their desire to keep the road open. (By reference, letter received from the State of Utah made a part of this record). During discussions with the State, the City staff had explained reasoning behind the proposed vacation and indicated the State's site presently had access from 2365 South. A suggestion was made that the State could also reach out to the new property owner to determine if a portion of what

would be vacated could be jointly used between the two parties by utilizing a perpetual access easement that could be maintained in common if agreed to by both parties.

Mayor Bigelow opened the public hearing. There being no one to speak in favor or in opposition, Mayor Bigelow closed the public hearing.
