When possible, both exterior and interior measurements of the building will be made in order to provide an accurate floor-plan drawing of the building.

3-17-104. WEST VALLEY CITY HISTORIC LANDMARK REGISTER.

Significant historic properties may be designated to the Historic Landmark Register for the purposes of recognizing their significance and providing incentives and guidelines for their preservation.

- (1) Criteria for Designating Properties to the West Valley City Historic Landmark Register. Any district, building, structure, object or site may be designated to the Historic Landmark Register if it meets the criteria outlined below:
- a. It is located within the official boundaries of the City.
 - b. It is currently listed in the National Register of Historic Places and a copy of the approved National Register form has been placed in the local historic preservation files.
 - c. A property not yet listed in the National Register must:
 - i. Retain its historic integrity as defined in Section 4.A.3.a., and
 - ii. Meet at least one of the following National Register criteria:
 - iii. associated with events that have made a significant contribution to the broad patterns of our history; or
 - iv. associated with the lives of persons significant in our past; or

 - d. It has been documented according to the Utah State Historic Preservation Office standards for Intensive Level Surveys (June 1993 version or subsequent revisions) or National Register standards and a copy of that documentation has been placed in the local historic preservation files.
 - e. Owner Approval
 - i. Individual properties. The owner of the property must approve the action to designate his/her property to the Historic Landmark Register by submitting to the Commission a written statement to that effect.
 - ii. Historic districts. A majority (over 50 percent) of the property owners in a proposed historic district must be in favor of the designation or at least not opposed to it. Written objections from over 50 percent of the property owners will constitute lack of approval and will halt the designation process.
- (2) Designation Procedures.
 - a. Submittal to the Commission of complete Intensive Level Survey or National Register of Historic Places documentation shall initiate the review process.
 - b. The Commission shall place properly submitted nominations on the agenda for its next scheduled meeting and shall notify the nominating party and the property owner, either orally or in writing, fourteen (14) days prior to the meeting that the nomination will be considered. The fourteen-day notification period may be waived at the property owner's option. In the case of historic districts, notification of proposed nominations may be made by public notice placed in the local newspaper or posted in a public building.
 - c. The Commission shall review the documentation for completeness, accuracy, and compliance with the "Criteria for Designating Properties to the West Valley City Historic Landmark Register" and may, by passage of an appropriate resolution, recommend that the City Council designate properties to the Historic Landmark Register.
- (3) Notification and Recording of Designation. Following designation, a notice of such shall be mailed to the owners of record together with a copy of this ordinance. In the case of historic district designation, notice of such may be placed in the local newspaper or in a public building rather than mailed to each owner of property in the district. The Commission shall record the Historic Landmark Register status designation with the County Recorder's Office.
- (4) Results of Designation to the Historic Landmark Register.
 - a. Properties designated to the Historic Landmark Register may receive special consideration in the granting of zoning variances or conditional use permits in order to encourage their preservation.
 - b. In the event of rehabilitation of the property, local building officials will consider waiving certain code requirements in accordance with Chapter 34 of the Uniform Building Code (1994 Edition), which deals with historic buildings, and the Uniform Code for Building Conservation, a special code for existing buildings.
 - c. Owners of Historic Landmarks may seek assistance from the Historic Preservation Commission in applying for grants or tax credits for rehabilitating their properties.
 - d. Proposed exterior work on Historic Landmarks is subject to the review and approval of the Historic Preservation Commission. The purpose of this review is to ensure the preservation of historic properties to the greatest degree possible. This review applies to individually designated Landmark properties or any property, contributing or non-

contributing, located in a Landmark-designated historic district. This review applies only to exterior work which requires a building permit, sign permit, or demolition permit.

- i. Applications for building, demolition, or sign permits pertaining to, shall be forwarded by the Building Inspection Department to the Historic Preservation Commission prior to their issuance.
- ii. A permit applicant, in order to obtain a permit from the Building Inspections Division, shall file a request for a Certificate of Appropriateness with the Commission on a form furnished by the Commission.
- iii. At its next scheduled meeting, the Commission shall review the application and proposed work for compliance with the "Standards for Rehabilitation," hereafter referred to as the "Standards," and any design guidelines adopted by the Commission and City Council.
 1. Applicants whose proposed projects comply with the provisions of this Title shall be issued a "Certificate of Historic Appropriateness" within ten (10) days, which authorizes the issuance of the appropriate permit.
 2. Applicants whose proposed projects are found to be in non-compliance with this Title shall be offered a negotiating period of sixty (60) days, during which time the Commission and applicant shall explore all options for an acceptable solution. These may include the feasibility of modifying the plans, using the historic landmark for alternative purposes, and reselling the property to another party. The Commission may extend the negotiating period an additional sixty (60) days for the purposes described above if deemed necessary to accommodate a potential solution.
 3. If no solution has been agreed upon at the conclusion of either the initial sixty-day (60) period or the full one hundred twenty-day (120) period the Certificate of Historic Appropriateness will be denied; consequently, the Building Official shall not issue any permits.
- iv. Claims of Economic Hardship. The Commission may approve a Certificate of Appropriateness for Rehabilitation or Demolition of a landmark property if the owner has presented substantial evidence demonstrating that unreasonable economic hardship will result from denial of the certificate of appropriateness.
 1. Economic Hardship Criteria. In order to sustain a claim of unreasonable economic hardship, the Commission may require the owner to provide information to whether the property is capable of producing a reasonable return for the owner.
 2. Demonstration of economic hardship by the owner shall not be based on conditions resulting from willful or negligent acts by the owner, purchasing the property for substantially more than market value at the time of purchase, failure to perform normal maintenance and repairs, failure to diligently solicit and retain tenants, or failure to provide normal tenant improvements.
- v. An applicant who has been denied any permit by the Building Official, based on the Commission's refusal to issue a Certificate of Historic Appropriateness, may appeal that decision to the City Council. The appeal must be made on or before thirty (30) days after the Commission's decision.

- (5) Removal of Properties from the Historic Landmark Register. Properties which, in the opinion of the Historic Preservation Commission, no longer meet the criteria for eligibility may be removed from the Historic Landmark Register after review and consideration by the Commission.
- (6) Enforcement. The provisions of this section are subject to the enforcement provisions established in the Uniform Building Code, Uniform Code for Building Conservation, or in the Uniform Housing Code as adopted by West Valley City.

(Ord. No. 08-44 Enacted 09/17/2008)

3-17-105. STANDARDS FOR REHABILITATION AND DESIGN GUIDELINES.

The following standards and guidelines shall be used by the Historic Preservation Commission in determining the historic appropriateness of any application pertaining to Historic Landmark properties. This includes individually designated Landmark properties and both contributing and noncontributing properties in Landmark-designated historic districts. In approving an application for a Certificate of Appropriateness, the Historic Preservation Commission shall find that the project substantially complies with all of the following standards and guidelines that pertain to the application and that the decision is in the best interest of the City.

- (1) Standards for Rehabilitation. These standards are based on the “Secretary of the Interior’s Standards for Rehabilitation,” which serve as a national and state model for appropriate preservation treatment. The standards are as follows:
 - a. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
 - b. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
 - c. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.
 - d. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
 - e. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.
 - f. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
 - g. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.
 - h. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
 - i. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated

from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

- j. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
- (2) General Design Guidelines.
- a. Landmark Buildings and Contributing Buildings in Landmark-designated Historic Districts.
 - i. Avoid demolition of landmark and contributing buildings. They are a finite resource and cannot be replaced.
 - ii. Vacant buildings should be weather- and vandal-proofed in order to minimize further deterioration and the threat to public safety.
 - iii. Rehabilitation work, especially on the exterior and the principal facade, should preserve existing historic features or replace them if absolutely necessary with features and materials known to have existed on the building. Avoid “dressing up” buildings by adding features based on speculation.
 - iv. Avoid moving buildings whenever possible, especially to create artificial groupings of historic buildings. If buildings must be moved, the new site should be similar to the original site, and the original setback and orientation of the building on the lot should be replicated.
 - b. Additions to Landmark and Contributing Buildings and Construction of New Buildings within an Historic District.
 - i. New additions to landmark and contributing buildings should be subordinate to the original building, that is, lower in height, attached to the rear or set back along the side, and subordinate in scale and architectural detailing.
 - ii. Height, width, setback, roof shape, and the overall scale and massing of new buildings should be compatible with surrounding historic buildings and the overall streetscape.
 - iii. Materials on at least the primary facade(s) should be similar to original materials on facades of surrounding historic buildings (usually brick, stucco, stone, or wood siding, depending on the specific characteristics of the district.
 - iv. Architectural details (including wood or metal trim, porches, cornices, arches, window and door features, etc.) should not replicate historic features on surrounding historic buildings.
 - v. Window and door openings should be similar in size and orientation (vertical or horizontal) to openings on historic buildings and should take up about the same percentage of the overall facade as those on surrounding historic buildings.
 - vi. Proportion of Principal Facades. The relationship of the width to the height of the principal elevations shall be in scale with surrounding structures and streetscape. Wider new buildings can be divided into segments that more closely resemble the facade widths of historic buildings.
 - vii. Roof Shape. The roof shape of a building shall be visually compatible with the surrounding structures and streetscape. Unusual roof shapes, pitches, and colors are discouraged.
