Is Your Home Safe?

Smoke Detectors

- Place smoke detectors near bedrooms, and on every floor.
- Test the batteries weekly
- Do not place them near air vents

Electrical Wiring

- Replace worn cords.
- Do not run cords under rugs.
- Do not overload outlets.

Space Heaters

- Do not use an extension cord on space heaters.
- Unplug heaters when you are not using them.
- Keep heaters a safe distance from furniture and curtains.
- Do not dry your clothes, gloves, or other items on the heater.

Home Safety Tips

- Always keep a fire extinguisher handy in the kitchen and garage.
- When burning candles keep them in a safe place away from things that might catch on fire.
- Store matches and lighters in a safe place up and away from children.
- While cooking do not leave food unattended, even for just a minute.
