Be Prepared

CERT is a program designed to teach and train citizens with the necessary means and knowledge to respond to emergencies.

The course is a seven week comprehensive training that requires a commitment of approximately three hours per class period, one night per week. The training is designed with a home safety and emergency preparedness curriculum that encompasses the following information and practical training:

1. Disaster Preparedness Overview
2. Hazard Mitigation
3. Medical Operations - Part I
4. Medical Operations - Part II
5. Light Search and Rescue
6. Disaster Psychology and Terrorism
7. Team Organization & Disaster Simulation

These classes are taught by experienced and certified personnel, using the most up-to-date training aids and equipment. There is a nominal fee per participant. All course materials are provided by the West Valley CERT Association and the West Valley City Fire Department.
