City Manager, Wayne Pyle, presented proposed Ordinance No. 13-25 which would amend Sections 16-1-101, 16-2-101, 16-4-101, 16-11-101, 16-12-101, 16-13-101, and 16-14-101 of Title 16 of the West Valley City Municipal Code to adopt the 2012 editions of the International Codes.

Mr. Pyle stated the adoption of the proposed amendment included the 2012 editions of the International Building Code, International Energy Conservation Code, International Fuel Gas Code, International Mechanical Code, International Plumbing Code, International Residential Code, and the International Property Maintenance Code as promulgated by the International Code Council (ICC).

The City Manager indicated that every three years revised editions of the above referenced Codes (which were adopted by the State of Utah as the minimal building standards for all buildings with the State of Utah) must be adopted by local municipalities to replace the older obsolete building codes. He explained the building codes were living documents subject to revision at annual code development hearings in a national forum. The results of those hearings were published every three years in revised editions. He reported failure to adopt the latest editions would put construction within the State in conflict with national standards. He stated the building codes listed were the necessary components of the family of ICC codes adopted by the State of Utah to regulate all types of building construction, building use, and building maintenance.

After discussion, Councilmember Vincent moved to approve Ordinance No. 13-25, an Ordinance Amending Sections 16-1-101, 16-2-101, 16-4-101, 16-11-101, 16-12,101, and 16-14-101 of Title 16 of the West Valley City Municipal Code to Adopt the 2012 Editions of the International Codes.
