5 Things You Can Do To Improve Safety in Your Neighborhood

- 1 Talk to your kids, neighbors, family and friends about crime. Explain the law, and right and wrong to children.
- 2 Participate in a Neighborhood Watch program. If you do not already have one in your neighborhood, consider starting one. Make sure your group has a clear mission statement and universal understanding of the goals in your neighborhood.
- 3 Build a relationship with the WVC Police Department Community Response Unit. They are ready and willing to help you.
- 4 Make sure the anti-crime message is consistent in all areas of your neighborhood. Organize meetings and social gatherings, reinforce the message that you want to have a safe and crime free community.
- 5 Communicate with your community. Promote the nextdoor.com application and stay active!
